

Pratikshan Malakar

Bronze Medalist, MAKAUT, 2019

This is Pratikshan Malakar from AEIE department. I graduated from Netaji Subhash Engineering College in the year 2019 and am currently working for TCS as an Assistant Systems Engineer. I am the Makaut 2019 Bronze medalist.

Throughout the 4 years of engineering I have constantly been guided by our department faculties. If you are a student who is interested in research work this is the place to be in. I myself have worked on several projects and

research work which I still cherish.

If you are willing to learn subjects outside curriculum , college arranges seminars and trainings where u can boost your knowledge so that you can have an edge over the others when you enter the interview room.

Thanks and Regards

Pratikshan
