I was a student of MCA department of 2016-2019 batch in NSEC. It was a nice time period in my life. The faculties are really supportive, motivating and friendly. I got lots of knowledge from my respected professors. They are very helpful. The overall infrastructure is quite good. I got placed in TCS. This department gifted me my first job. I am very thankful to my department and professors for helping me to achieve my goals.

My 3 years at Netaji Subhash Engineering College have been an excellent memory to cherish for a lifetime. I didn't realise that how quickly some of the precious years just passed away. A special thanks to the faculties of MCA department. They had provided us with an exposure of learning as per the industry requirement. They also have provided us with the assistance that we required for the overall improvement. I will always be grateful to this college for providing me a platform of practical learning and preparing me for the corporate life. Thank you for everything.

NSEC has been a great journey for me which yielded a great destination too. My three years in college has been full of life and learning. Right from the very first day, the college successfully made us move to a higher peak. The faculties are just other friends who would guide you regularly, seeking it's their own success. The computer application department is a family, where academics are taken care with discipline and love. It imbibes you to be passionate, imagine and achieve the best.

▪ **Sandipan Ghorai, MCA 2017, Cerner Corporation**

My three years at NSEC have been excellent and a memory to cherish for a lifetime. The years spent here have been full of learning opportunities that filled with fun and frolic and sometimes with the academic grind that one has to go through. NSEC has always believed in helping and guiding its students and it was no different during the placement season. Our placement administration officers also guided and encouraged us at each step thereby helping me secure my placement at such a reputed company. I was really lucky that I got placed in our first ever placement drive at Cerner Corporation.
