BUILDING AMAZING WEB APPS USING PROGRESSIVE WEB APPS

Developer Student Club – Netaji Subhash Engineering College (DSC-NSEC) organizes online webinar under lockdown impact series on “**Building amazing web apps using Progressive Web Apps**” on 5th of April, 2020 at 5:00pm.

Introduced in 2019, PWAs are a unique, cutting edge technology which allows Website developers to automatically create applications which run like native applications on any platform. Thus, allowing developers to build solutions for any device only by web development.

Mr. Vrijraj Singh, Organizer of Google Developers Group Jalandhar and a Google Developer Expert at Web technologies will conduct the online session. Mr.Vrijraj is a very prominent name among web developers in India and has been the creator of the world-famous Aura template, which is used by over 70 Google Developers communities worldwide. Besides that, he is also a speaker for various national and international tech conferences. You can find Vrijraj's LinkedIn profile here:

<https://www.linkedin.com/in/vrijraj/>

The session details are as follows -

Date: 5th April, 2020

Time: 05:00 PM IST

Online stream location: <https://www.youtube.com/watch?v=mKEjBC7IZoA>

Faculty Coordinator : Prof. Sourav Mitra

Event Coodinator : Anubhav Singh (Lead, DSC-NSEC) : 7003944046
